All I can say is 'WOW'. This game completely understands and utilizes what made 90s horror games so nerve-racking.

From the very beginning I was expecting jumpscares to be at the forefront of this title, given the contrast between settings in the screenshots, but I couldn't have been more wrong. It fully embraces its aesthetic and manipulates it in just the right way to give you a feeling of unease that gradually increases as you delve deeper into what's going on with this town. I felt a genuine dread with every level, and couldn't wait to see what awaited me as I continued onward. I don't want to spoil anything, so I'll just end with this: if you've ever been creeped out by a game that came out during the mid-90s, this will absolutely recapture whatever it is you felt. Buy this game.

Bravo to the developers. This was fantastic.. I see assetto corsa dlc, i buy.

Also F2004 and sounds mmmmmmmmm. A Bare-bones(heh) 16-bit styled metroidvania with gorgeous environments, awesome bosses, vintage challenge and above all, an amazing soundtrack! just give it a listen.

Theres touches of splatterhouse, castlevania 4, and that beloved metroidvania map and exploration. but the game REALLY feels like a 16 bit game from the mid 90s and it feels like a lot of love went into making it feel that way. So many feels! sign up and punch some skulls at once!. Easy 10/10.. The best RPG game!

Upside:

Pr\u00e4sentation is good it develops a mood quickly and the engine works solid.

Movement is good, i never got stuck. Some of the enemies have interesting behaviour.

Downside:

Bad balancing makes into bad gameplay. Another single developer is his own best gametester.

Levels are crowded with bullet-spongy enemies but the weapons are underpowered.

Still the game intends you to go in the middle of the action with only limit range weapons and temporary kill - damage bonus. That would be neat, if the weapons could deliver a punch.

Each ammo pickup refills 100% ??? So you are forced to avoid them or waste alot.

It does not help that you are expected to do a 100% cleanup job to leave the level.

Theres a lot of potential so i hope there will go some more balancing into it.. Do people even know this game exists? Great city building game on Normal. Insane difficulty on Hard.. ok turnbased game. nothing special? clumsy controls.

Wow. Words cannot describe the trouble i was in for screaming out twice from 2 different jump scares in a room full of ppl..
No Man's Sky 2.0

Makes a game that a lot of people want.

Makes a pre-release version of the game

Puts it up on Early Access to sell players that the game will receive updates

Cashes it in

However 'No Man's Sky received multiple updates' after launch,

I haven't noticed a single one...

Don't buy this game, by all means

Just don't buy this game.

You are giving someone money to get an early access game that will never change.. One of the kookiest games I've played in awhile. Really fun to play.. Far from the best of these kind of nes throw back games, but it's still pretty entertaining and with the price being as low as it is it's defiantly worth a look if you're into this kind of thing.. Overall, I would recommend The Dungeoning. It's addicting, however there's currently not a whole lot present to keep you interested for very long. If you're in to these types of games, then I would recommend you at least consider The Dungeoning.. Fun little dual stick shooter with controller support. Random worlds but fairly limited enemies. Grenade based combat works quite well, however you find yourself hoarding some of the better ones for tough bad guys which makes the normal fighting prominent. only way to play cs
